

## TRUTEK TFP – STEEL BELTS PERFORATED MOUNTING

### Usage:

- fixing cables and pipes
- fixing hangers to suspended ceilings
- transport securing
- temporary fixings

### Advantages:

- fastening with anchors, plastic dowels, screws and nails hammered in using powder or gas nailers
- multitude of applications and easy assembly
- convenient plastic cassette makes assembly easier
- economical fastening

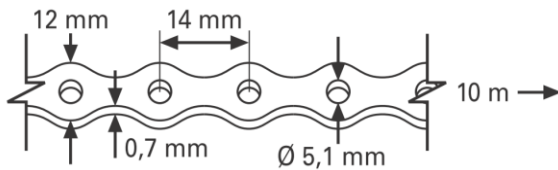

### TFP tape material:

Perforated mounting tapes are made of ordinary steel, carbon steel and are covered with a layer of galvanized steel not less than 5µm thick.

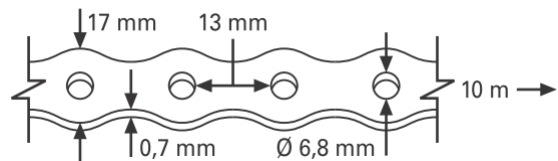

### Technical parameters of TFP perforated tapes

Product Code	Tape width W [mm]	Tape thickness s [mm]	Tape length L [m]	Mesh / mesh diameter d [mm]	Strength of belt N <sub>rec</sub> [N]	Outer Box Quantity	Pallet Quantity
TFP12	12	0,7	10	5,1	500	10	1200
TFP17	17	0,7	10	6,8	700	10	1200
TFP25	25	1,0	10	8,5/4,0	1800	5	560
